

"Breaking Barriers with Ketamine Therapy" Webinar to Explore Innovative Solutions for Mental Health Treatments

Jacksonville, FL – West Eastern Health, a pioneer in holistic and innovative mental health care, is excited to announce its upcoming webinar, "Breaking Barriers with Ketamine Therapy."

Thursday, September 12th, 2024
7:00 PM Presentation
8:00 PM Q & A

Join us as we explore how ketamine therapy can be a transformative tool for mental health professionals and their patients, particularly those who have been resistant to traditional forms of therapy.

Ketamine therapy has emerged as a promising treatment for a variety of mental health conditions, offering hope to patients who have not found relief with conventional methods. This webinar aims to educate and engage mental health professionals by providing in-depth knowledge about ketamine's therapeutic potential, supported by the latest research and clinical experiences.

---	--	---

12 September / 6 - 8 PM

SIGN UP BELOW Visit our website www.westeasternhealth.com

Don't miss your chance to engage with leading experts in the field of psychedelic medicine who are at the forefront of research and clinical practice. Learn about the latest applications of ketamine therapy in mental health treatment.

- Dr. David Mathai, MD: A board-certified psychiatrist and Assistant Professor at The Johns Hopkins University School of Medicine, Dr. Mathai brings advanced training as a behavioral pharmacologist and extensive research experience in psychedelic therapies. He will present on the science behind ketamine therapy and its clinical applications.

- Lauren J. Marchefka, FNP-BC, MSN, ABAHP, CMHIMP: A Board Certified Family Nurse Practitioner and Certified Mental Health Integrative Medicine Provider, Lauren specializes in psychedelic research and anti-aging medicine. Her session will focus on practical applications, patient outcomes, and best practices for integrating ketamine therapy into mental health treatment plans.

- Aneel Paulus, MD, MS: Founder of West Eastern Health, Dr. Paulus is a distinguished physician-scientist with over 15 years of experience in translational oncology, clinical trials, and drug development. He will moderate the event, guiding discussions on overcoming challenges in ketamine therapy and ethical considerations.

Space is limited for in person attendance and reserved for mental health professionals looking to enhance treatment options for their patients. Webinar is open to all on Zoom. To secure your spot, please RSVP by visiting our website. www.westeasternhealth.com This is a Free event.

About West Eastern Health

West Eastern Health is dedicated to providing innovative, holistic health solutions that support the well-being of our community. Our approach combines cutting-edge treatments with traditional holistic practices such as breathwork and guided meditation to offer a comprehensive range of services designed to enhance mental, emotional, and physical health.
